

July 2009

The social side of the Cedia Expo held in July 2009 at Darling Harbour Sydney

After a very successful 3 day Cedia exhibition, the annual golf tournament took place on Saturday July 18th. It was held at the championship Riverside Oaks Golf Course - an absolutely gorgeous location.

Last year's Epoz team lined up once more, although it was necessary for a late replacement as Mark Cichowski, the U.S. representative for AktiMate had to head back to the States (understandable as he had only been married just 2 weeks beforehand!).

It proved to be a fun industry day with a number of well known companies fielding teams - some good, some very good and some not so serious participants just having a lot of fun.

Last year (2008) the Epoz team lost by a mere half point and so this year they were looking to go that one step better. Happily they achieved their goal, taking out the trophy.

A relaxing team talk before tee off.

Looking the part at the first

And a very happy team captain after the presentation.

It should be noted at this point that Jason has Elected to keep the trophy in pride of place in his home in preference to the Epoz office.
